Art Unit: 2664

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 33-48, drawn to time division multiple access communication system, classified in class 370, subclass 347.

II. Claims 49-69, drawn to polling, classified in class 370, subclass 346.

2. The inventions are distinct, each from the other because of the following reasons:

The above inventions I and II are separate, distinct, and independent. Neither requires other for its implementation, they have separate statuses in the art as shown by their different classification. Each invention, if allowable, would be capable for supporting a separate patent. Therefore, restriction for examination purposes is proper.
